Abstract (Basic): SU 1837887 A

Arterial blood pressure can be reduced by ingesting infusions made from a herbal mixt. comprising (g): Leonorus (400); calendula (200); valerian (200); mint (200); hops (100); clover (100); tansy (200); hawthorn (400); nettle (100); yarrow (100); St. John's Wort (50); origanum (100) and linseed (100).

Infusions are made by adding 1-2 teaspoons of the mixt. to boiling water and allowing to stand for 10 min..

USE - The mixt. is used for treating hypertensive disorders.

ADVANTAGE - The mixt. reduces arterial pressure and possesses antimicrobial, antibacterial and antiviral effects.
